It is indeed a pleasure for me to bring to your notice that Hippocratic Journal of Unani Medicine (HJUM), a peer-reviewed scientific quarterly journal published by the Central Council for Research in Unani Medicine (CCRUM), has been included in UGC-Care List (UGC-CARE Reference List of Quality Journals).

2. The HJUM covers original and review papers, case studies and technical reports related to research on single and compound Unani drugs, experimental pharmacological studies, validation of regimen therapy, development of standard operating procedures, standardization of single and compound drugs, ethnobotanical studies and literary research & historical studies in Unani medicine. The journal is also open for studies related to biotechnology, nanotechnology, molecular biology, genetics, nutraceuticals, cosmotherapeutics, aromatics, veterinary medicine and other allied health sciences.

3. Since its inception in 2006, the HJUM has made a long journey and achieved the status of a reputed journal of Unani Medicine. The contributions of researchers and academicians of varied streams have played very crucial role in this journey.

4. As we are making concerted efforts to further improve it in qualitative as well as quantitative terms, your good self is requested to get it circulated amongst the faculty members/researchers of your esteemed university and encourage them to submit their research papers on relevant topics for publication in this journal.

5. The papers may be submitted through email at rop.crrum@gmail.com. Guidelines for submission of papers may be seen at: http://crrum.res.in/ViewData/Multiple?mid=1600

Best regards,

Sincerely Yours,

(Prof. Asim Ali Khan)
Director General, CCRUM &
Editor-in-Chief, HJUM
